

522929

This form allows the recording of the results of the required checks as defined by the Gas Safety (Installation and Use) Regulations. The information recorded on this form does not confirm that the installation was installed by a Registered Installer or that the installation complies with any relevant Building Regulations. Flues were inspected visually and checked for satisfactory evacuation of products of combustion. A detailed internal inspection of the flue integrity, construction and lining has not been carried out.
